11/15/2012

## STAGE ONE — "BIG WHEEL PACKAGE"

The following wheels and tires are designed to be installed on 2009-2013, Ford F550 trucks. Some bed modifications may be necessary and/or it may be necessary to raise the front and rear +2". These tires and wheels are rated at 8,250 lbs. each. However, the GVWR is limited by the manufacturer's certifications, not by the rating of these tires and wheels. Tires and wheels are shipped un-mounted. The package includes the following:

### Part# Description

- T10 (4) 335 75R 20 G rated, Super-Single, traction lug tires, 41" height
- W10 (4) 20 x 10, Reversible steel wheels, painted black
- F10 (2) Custom designed, heavy duty, front fender flares
